

Internship Project Information System

**Powered by D.I.S Technology Co.,
Ltd**

2 October 2025

Objectives

Our Vision

- ▶ Single platform for everything internship-related information
- ▶ Helping students gain real-world experience
- ▶ Making teachers' work simpler and more effective
- ▶ Strengthening teamwork between students, teachers, and companies
- ▶ Less paperwork, more focus on learning and success

Project Scope

What This System Brings

- ▶ A central hub to manage all internship projects with ease
- ▶ Students can build profiles, create projects, and form teams
- ▶ Teachers manage student emails and project approve and reject.
- ▶ Secure login with OTP to keep everything safe
- ▶ Works smoothly on both desktop and mobile

Public Portal (Definition)

What is public portal

- ▶ Entry Point of the Internship Project System
- ▶ Accessible to anyone without logging in
- ▶ Provides general information about the system
- ▶ Offers resources for students and teachers
- ▶ Shares insights for students, teachers, and visitors

Public Portal Workflow

No Log in Require

- ▶ Home Page: A warm welcome and easy navigation
- ▶ Public Dashboard: Number of the project types and languages used.
- ▶ Project Ideas: Explore approved projects for inspiration
- ▶ Internship Companies: Discover opportunities by city or domain
- ▶ FAQ: Quick answers without needing support

Final Year Student Workflow

The Student Journey

- ▶ Login with Roll No & Email (OTP verification)
- ▶ Role check → Leader or Member
- ▶ Student Create → profile
- ▶ Leader Dashboard → Create project, manage team
- ▶ Member Dashboard → View-only access to project details
- ▶ Leader adds members, finalizes project
- ▶ Project submitted → status updated to Pending
- ▶ Team members can track progress together

Teacher Workflow

How Teachers Shape the Process

- ▶ Login securely with institutional account
- ▶ Dashboard shows pending projects
- ▶ Approve or Reject projects with feedback
- ▶ Manage student's emails & their projects
- ▶ Add/manage internship companies (future scope)

Advantages

Why This System Helps

- ▶ Central hub for students, teachers
- ▶ Transparent communication & smooth collaboration
- ▶ Saves time, reduces manual errors
- ▶ Secure and easy to use
- ▶ Reduce expenses for documents
- ▶ Serve as a unique reference database

Disadvantages

What to Keep in Mind

- ▶ Internet connection is required
- ▶ Approval delays could affect students
- ▶ System cost

News and Announcement

What kinds of announcements and features are

- ▶ Teacher writes and publishes announcements (deadlines, events, updates).
- ▶ Students get notified immediately when a new announcement is posted.
- ▶ Old announcements are stored in a history/archive section so students can review anytime.
- ▶ Teacher can update an existing announcement and students see the “Updated” tag.

THANK YOU!
