

# **Internship Project Information System**

**D.I.S Technology Co., Ltd**

10/1/2025

# Objectives

## **Our Vision for the System**

- ▶ One place for everything internship-related
- ▶ Helping students gain real-world experience
- ▶ Making teachers' work simpler and more effective
- ▶ Strengthening teamwork between students, teachers, and companies
- ▶ Less paperwork, more focus on learning and success

# Project Scope

## What This System Brings

- ▶ A central hub to manage all internship projects with ease
- ▶ Students can build profiles, create projects, and form teams
- ▶ Teachers can guide, review, and support students efficiently
- ▶ Secure login with OTP to keep everything safe
- ▶ Works smoothly on both desktop and mobile

# Public Portal Workflow

## Before You Even Log In...

- ▶ Home Page: A warm welcome and easy navigation
- ▶ Public Dashboard: Number of the project types and languages used.
- ▶ Project Ideas: Explore approved projects for inspiration
- ▶ Internship Companies: Discover opportunities by city or domain
- ▶ FAQ: Quick answers without needing support
- ▶ Login: Step into your personalized dashboard

# Student Workflow

## The Student Journey

- ▶ Login with Roll No & Email (OTP verification)
- ▶ Role check → Leader or Member
- ▶ Leader Dashboard → Create project, manage team
- ▶ Member Dashboard → View-only access to project details
- ▶ Leader adds members, finalizes project
- ▶ Project submitted → status updated to Pending
- ▶ Everyone can track progress together

# Teacher Workflow

## How Teachers Shape the Process

- ▶ Login securely with institutional account
- ▶ Dashboard shows pending projects & announcements.
- ▶ Post important announcements (one active at a time)
- ▶ Approve or Reject projects with feedback
- ▶ Manage students & their records
- ▶ Add/manage internship companies (future scope)
- ▶ Update personal profile & password anytime

# Advantages

## Why This System Helps

- ▶ Central hub for students, teachers
- ▶ Transparent communication & smooth collaboration
- ▶ Saves time, reduces manual errors
- ▶ Secure and easy to use
- ▶ Can reduce expenses for documents
- ▶ Can make references the projects

# Disadvantages

## What to Keep in Mind

- ▶ Internet connection is required
- ▶ Some training/setup may be needed
- ▶ Approval delays could affect students
